

CRUISER RAMP

providing Transportation Solutions For Your Motorcycle

- ◆ The Cruiser Ramp system eliminates the need to ride up a steep angled 2" X 12" plank, or backing your pick-up into a ditch in order to load your motorcycle into the bed.
- ◆ Safer than motorcycle ramps or wooden planks. More feasible than pulling and parking a motorcycle trailer.

- ◆ The effort free, unique return system pulls the motorcycle back out of the bed. No need for a second or third winch with confusing electronic switching. The system incorporates a hand held remote switch with 15 feet of cable.

CRUISER RAMP

- ◆ Shipped fully assembled, ready to install into the pick-up bed.
- ◆ Easy installation and removal from the pick-up bed.
- ◆ Compatible with all full size pick-up beds with 5'-5", 6'-6", and 8' in length and at least 48" width between the wheel wells. Includes the Chevrolet Avalanche and like vehicles.
- ◆ May close the tail gate with the motorcycle removed in 5'-5" (except Avalanche and like vehicles) and 6'-6" bed lengths. Do not have to remove the Cruiser Ramp system.
- ◆ 8' bed system may also be used in the 6'-6" long pick-up bed.
- ◆ May load the motorcycle with or without the tail gate attached in 8' long pick-up beds.
- ◆ Can close the tailgate with motorcycle loaded in an 8' long bed. (Depending on the overall motorcycle length. Shown above right with HD 95th Anniversary Fat Boy)
- ◆ 1000 pound motorcycle load capacity.
- ◆ Winch = 3000 pound electric cable winch with 3/16" heavy duty wire rope.
- ◆ Switch = Remote switch with 15' of cable. Remote may be removed and stored in pick-up cab.
- ◆ Standard, Self Locking Wheel Chock and ratchet axle tie-down straps.
- ◆ 1500 pound load rating on the center loading ramp.
- ◆ Baked on black powder coat finish for long lasting appearance.
- ◆ Product Liability Insurance.
